ARE IN DE LUXE QUARTERS

Law Firm of Shinabargar, Blogg & Ellison Nicely Located in New Michau Building

"Is this Shinabargar, Blagg & Ellison's office?"

"Certainly, just walk right in."

One walks, but like Alladin, rubbing his eyes. It's so de luxe—the new office suite in the Michau building into which this law firm moved last week.

The offices include five rooms. The entrance is from the main hall on the south side of the new building. The main reception and general office rooms comes first and to the right of it and on the Main street side are the three private offices for each of the firm, J. S. Shinabargar, W. A. Blagg and George Robb Ellison.

To the north of these rooms and facing the length of the room on Fourth street and the width on Main with plenty of light and window space, is the library, which is one of the handsomest and niftiest law library rooms which could be planned. The wood is plain finished hard pine and the walls are plain tinted in a soft buff, all the rooms being similar.

The new rugs and furniture harmonize with the rooms and when the furnishings are completed, nothing more could be desired to make commodious, handsome office suite for a law firm or any firm fortunate enough to be so located.

Judge W. C. Ellison has his offices, a public and private room, in the same building and has the double suite next to the one occupied by Shinabargar, Blagg & Ellison.

GOING IN FOR SHEEP RAISING

Farmers in the Barnard Community Have Shipped in Over 13,000 Breeders Taking an Interest

Barnard and community has shipped in more than 13,500 sheep within the last three months and they are they being used to clean up the weeds and drouth stricken fields to good advantage says the Barnard Bulletin. It is no common sight to see seven or eight car loads come in a day. There has been 44 double deck cars of sheep shipped in through Barnard and a few cars into Bolckow for several Barnard people and, counting 125 sheep to a deck to an average, the total will be13,500.

Eaton & Breit have shipped in about twice as many as all the rest of the purchasers of sheep combined, having contracted for many thousands to be shipped at stated intervals. However many farmers have shipped in their own sheep, having purchased them on the market. Besides handling feeders and ewes, they have shipped in a number of purebred rams which will help breed up a good line of sheep in this community.

It has been the experience of most of the sheep men that there is a good deal of money in feeding them. Cole & Phelps have 1700 on their place, Huston Smith has 750, Sam Smith has 500 and many farmers have over 250.

TO AID REGISTRANTS IN CIRCUIT COURT ROOM

ATTORNEYS ESTABLISH QUESTIONNAIRE SERVICE BUREAU

Free Legal Aid in Filling Out Papers is Offered During the Time Questionnaires Must be Answered

With Provost Marshal General Crowder urging that work in connection with getting the new selective service men ready for early calls members of the Maryville Bar Association will devote the next three weeks to aiding registrants in filling out their questionnaires and having them returned to the draft board. With the September circuit court term postponed by Judge Dawson until October 21, the circuit court room will be used as a central place where all registrants who desire assistance will find attorneys at all hours of the day.

Heretofore registrants have found it necessary to wander from one office to another, in haphazard fashion, until they could find some attorney or banker who would help them with their questionnaires. Last winter in many law offices and banks there would be a waiting list of registrants. This occasioned serious inconvenience to the registrants, who in many instances, had brought with them their wives and children or neighbors.

It was decided that the convenience of registrants would be best served by establishing some central place to which they could go with their questionnaires, where an adequate number of attorneys and others would be on duty and ready to help them. Carrying out this idea, it was decided that beginning today Questionnaire Service Bureau would be started in the circuit court room at the court house to be open from eight o'clock each morning until five each afternoon. The attorneys of the county and other qualified persons, numbering about thirty in all, will give their time to this work in shifts. About seven or eight men will be on duty each morning from eight o'clock until noon, and another shift from one o'clock until five o'clock each afternoon, and so on through the three week period. No questionnaires will be filled out at lawyer's offices. All this work will be done at the court house.

This contemplated arrangement has been worked out to take care of the questionnaires which will be filled out at Maryville. Those who desire to take their questionnaires to bankers or others in other towns in the county more convenient to their place of residence may do so, as was done last winter when questionnaires were filled out by the boys between 21 and 31 years old.

The attorneys ask that the questionnaires be read over and studied carefully as soon as they are received in order that the import of all questions may be understood. It is especially urged that the questions under "Agricultural Occupation" be figured out in advance as much time may be saved if each registrant is able to have the answers ready at the time he brings his questionnaire.

A COUNCIL MEETING

SPECIAL SESSION TONIGHT TO CONSIDER LIGHT CONTRACT.

WILL DELAY NO LONGER

In Absence of Expert Opinion That Was Expected to be Had, Mayor Would Get Things Started.

Mayor W. O. Garrett has called a special meeting of the city council tonight when it is expected that a contract with the Maryville Electric Light & Power Co., will be entered into providing for the furnishing of city lights. Members of the citizens committee, E. C. Curfman, Conrad Yehle and R. F. Hamblin will also meet with the council and manager, Hellmers of the light company.

Mayor Garrett stated this afternoon that while the council had not been able to secure expert opinion as to what a fair rate for light might be, the cost of production considered, it was deemed advisable that there be no further delay in entering into a contract and that the matter be put up to the tax payers of the city at a special election as soon as possible. Mayor Garrett said that he would be glad to have as many taxpayers as were interested attend tonight's meeting.

If a contract is entered into the council will immediately announce a special election for the purpose of voting the necessary tax levy to provide for the payment for the lights over such period of years as may be specified in the contract. It will require a two-thirds vote to carry the proposition.

MANUAL TRAINING TEACHER

W. H. Sims, of Iowa Joins Normal Faculty—Will Also Direct Athletic Activities of S. A. T. C.

President Ira Richardson of the Normal School announces the employment of W. H. Sims of Missouri Valley, Iowa to the positionn of instructor in manual training and athletic coach, to take charge of the work at the beginnig of next week.

Mr. Sims is a graduate of the Kansas State Agricultural College at Manhattan, Kansas, and has done postgraduate work in the University of Kansas. He has had several years' experience in the high schools of Kansas and Iowa, teaching these subjects. For the past two years he has been at Clarinda, Iowa. Mr. Sims will also assist in the Agricultural Department and direct the athletic activities of the Student Army Training Corps.

October 12 Liberty Day.

Washington, Sept. 20—President Wilson this afternoon proclaimed Saturday, October 12, next as Liberty Day with the request that all celebrate the discovery of our country on that day in order to stimulate response to the Fourth Liberty Loan.

Announcement

I have taken charge of the Maryville Branch office of the Walton Trust Co. of Butler, Mo., in place of Chas. R. Bowman, who resigned to engage in other work.

The Walton Trust Co. has been engaged in the Farm Loan Business for the past forty one years and in order to cover the entire states of Missouri, Kansas and Oklahoma have a number of branch offices. Each branch office cares for the business of a specified number of counties.

The Walton Trust Co. has been for years, and are now in a position to make farm loans at rates and on terms consistent with safety and sound business principles.

This office has recently been moved from North Side to South Side of square, 108½ E. Third St., which is over Price's Bakery and Grocery.

We very earnestly solicit a share of the farm loan business and ask those desiring loans of this nature to call on us or one of our agents in this territory.

Yours respectfully,
CHAS. E. STILWELL,
Manager.

BIG COUNTER-DRIVE FAILS

Attempt to Storm American Positionos Unedr Mist Cover Resulted in Disaster, Due to Accuracy of American Gun Fire

With the Americans on Lorraine Front, Sept. 20—The Americans have occupied Amerswiller in Alsace near Colmar the war department announces this afternoon. The Germans had previously evacuated the town.

Loondon, Sept. 20—The Bulgarians on the Balkan front are in flight over a front of seventy miles. They have evacuated positions all the way from Monastir to the Vardar river, it is clarned this afternoon.

With the Americans on Lorraine Front, Sept. 20—Debauching from Bois de Marmille an Austro-German detachment on the Meuse-Moselle front attempted to raid American positions northeast of Doncourt. The Americans captured three of the raiders. Patrols are very active on the whole American front and squads of our men are operating up to the new Hindenburg line.

London, Sept. 20—British troops again lunged forward on the front northeast of St. Quentin Thursday, advancing a mile and capturing the important town of Mouveres, the war office announced today. Mouevres is about seven miles west of Cambrai and is an outpost of the northern end of the Hindenburg line. In the Epehy sector part the old British defensive system has been recaptured. Violent fighting centered about Mouevres and there was a hard struggle on the Lempire-Ephey line where the Malassise farm was captured.

With the Americans on Lorraine Front, Sept. 20—A German attack was attempted this morning at five o'clock under cover of a mist which hung low over the lines in the Haumont and Remcourt sectors, but the American artillery slammed down a violent counter barrage completely routing the bosches. The Germans were unable to reach the American lines so terrific was the fire and many dead were left on the field. During the night the enemy established machine gun posts in the outskirts of Haumont. The villages named are south west of Metz.

Paris, Sept. 20—Five violent German counter attacks were repulsed by the French in the Ailette river sector last night, while the French troops gained more ground in front of St. Quentin and north of the Aisne, the war office announced. Attempts of the Germans to cross the Vesle river where the Americans are fighting failed and the enemy met with heavy losses.

RED CROSS SALE $500.00

About $500 was cleared yesterday at the Red Cross auction sale held at Pickering. The amount brought in yesterday was a little more than $450 and there is some money yet unpaid and a quantity of grain to sell which will easily bring the total over the half thousand mark.

The highest individual sale made was a goat, which brought $55. The animal was purchased by the children of Marion Gray. The proceeds of the sale were very gratifying in amount to the Pickering Red Cross branch. Some of the oats sold brought as high as 93 cents per bushel and the corn $4.00 per bushel. The sale was managed by C. R. Harmon, chairman of the Pickering branch.

The United States Government is determined to get one million men to prosecute the work of supplying the necessary sinews of war. No more appeals will be made to men on patriotic grounds, but the services of chiefs of police and other civil officers may be brought into play to supplement the fast dwindling supply of volunteers for this service.

The following is the general policy of the department of labor "For the purposes of the centralizing war labor recruiting program 'War Work' means:

1. The manufacture of products or the erection of structures directly or indirectly supplied to some department of the government with the war. "Indirectly supplied," includes goods delivered under subcontracts to government contractors.

Coal mining is wholly war work.

Railroads and farms are engaged in war work to the extent that under this program they are protected from all recruiting by other industries.

The making of products which may ultimately be used for war purposes but which are not to be delivered either directly to the government or to some contractor who uses them in producing, or as a part of products to be delivered to the government, is not considered war work.

RED CROSS WANTS CLOTHING

Will Supply Thousands of French and Belgium Refugees—Week for Campaign Sept. 25 to 30

Ten million human beings who are now suffering for lack of clothing are looking to us to help them and the week of Sept. 23 to 30 has been set aside to collect cast off clothing throughout the United States.

Every kind of garment, for all ages and both sexes, is urgently needed. In addition, piece goods—light, warm canton flannel and other kinds of cloth from which to make garments for new born babies, ticking, sheeting, and blankets, woolen goods of any kind—and shoes of every size are asked for. Scrap leather is needed for repairing footwear.

Since the clothes will be subjected to the hardest kind of wear, only garments made of strong and durable material should be sent. It is useless to offer to any afflicted population garments of flimsy material or gaudy coloring. Garments need not be in perfect condition. Destitute women in the occupied regions are eager to earn a small livelihood by repairing gift clothing and making new garments adapted to needs with which they are familiar.

All kinds of woolen goods are needed; soft hats and caps for all ages, and sweaters of any kind and size. Men's shirts and pajamas are particularly welcome, since the material can be utilized for making children's garments.

The Nodaway County Chapter has been assigned a definite quota of pounds of cast off garments and Mrs. Geo. P. Bellows, director of woman's work, urges workers in all auxiliaries to set aside the week from September 23 to 30 to take their donations to their various headquarters.

Every household in Nodaway county has some spare clothing, worn or outgrown, of little use here, but desperately needed by the destitute in European countries. The world is now short of clothing and raw material so the Red Cross can no longer purchase what is needed. But you can give it.

HOLD THE CAMPBELL RITES

Service for Skidmore Former Held at Baptist Church This Afternoon. Burial at Groves Cemetery

Funeral services for Robert S. Campbell, who died yesterday morning at his home southeast of Skidmore, were held at 2 o'clock today at the Baptist church at Graham, conducted by the Rev. M. DeWitt. The body was interred in the Groves cemetery.

Mr. Campbell was born in Kentucky, October 19, 1847. He came to Nodaway county when a young man and has made his home here continuously since. For thirty-five years he had lived on the same farm. He made his home with his son, Jesse Campbell and family. He is survived by the one son, Jesse, and two brothers and three sisters. One sister, Mrs. Watkins, lives at Rock Port.

E. A. Hughes, a nephew, living at Persia, arrived at Skidmore this morning to attend the funeral service of his uncle.

30 DEAD IN TUNNEL WRECK

Paris, Sept. 20—Over thirty persons were killed and more than one hundred were injured when the first section of the Marseilles express was telescoped by the second in Pacy tunnel near LaRoche. Advices stated that American engineers went to rescue the wounded.

Called to St. Charles.

Mr. and Mrs. R. B. Gex, living south of the city, left last night for St. Charles, Mo., in response to a message saying that their daughter, Miss Bettie Gex, was seriously ill. Miss Gex left for St. Charles about two weeks ago.

Clun Price at Coast Camp.

Clun Price, the son of Mr. and Mrs. John Price, who is with aerial photography division of the aviation corps, has recently been transferred with his company from Watertown, N. Y., to a coast camp at Hempstead, L. I., and is expecting to start abroad at once.

Information Concerning Students Army Training Corps

By UEL W. LAMKIN
State Superintendent of Schools.

Every boy who is eighteen years of age or will be eighteen years old before January 1 and who has completed a four year high school course should enter at once one of the colleges in Missouri maintaining a unit of the Students' Army Training Corps, and if physically qualified, be inducted into the Corps on or about October 1, or after reaching the age of eighteen. The following schools have been approved for units: University of Missouri at Columbia, The School of Mines at Rolla, Washington and St. Louis Universities at St. Louis, the State Normal Schools at Kirksville, Warrensburg, Cape Girardeau, Springfield and Maryville, Central Colleg at Fayette, Drury College at Springfield, Missouri Wesleyan College at Cameron, Park College at Parkville, Tarkio College at Tarkio, Westminster College at Fulton, and William Jewell College at Liberty. Other units may be established before October 1. Prospective students should make immediate inquiry of the school nearest them or of one they prefer to attend. On or about October 1 boys who have entered through ordinary channels of college or university admission and who are qualified for the S. A. T. C., will be inducted into the Corps through the commanding officer in charge. Before their induction students will have to pay living expenses and pro rata charge for tuition. After induction they will be furnished uniform, housing and board and be paid $30.00 a month by the U. S. Government. They will be members of the United States Army subject to military discipline and under orders from the U. S. Army Officers in charge.

The courses of study for students in the Army Training Corps will consist of eleven clock hours of military instruction per week, including physical training. In addition they will be required to spend forty-two clock hours a week in lectures, recitations, laboratory instruction and supervised study. A wide range of election is offered.

Four years of high school work means fifteen units or its equivalent. Where boys have had experience or commercial or similar training which may be accepted in lieu of two units of work, they will be admitted with a credit of thirteen academic units and conditioned in two units. The Committee on Education of the War Department does not intend to relax this standard and will have a sufficient force of inspectors to see to it that colleges maintaining the units comply with these requirements. Colleges should not admit boys except with a full understanding of the conditions.

There is also a Vocational Section of the Students' Army Training Corps which is open to persons having a common school education. It is not the policy of the Government, however, to increase the number of such, and no college which is not well equipped with extensive engineering shops, laboratories, etc., will be approved for a Vocational Section. Induction into this Vocational Section will be made through local draft boards. These must not be confused with the collegiate sections established in the colleges named above. At present there are Vocational Sections in the University of Missouri, Washington University and the School of Mines. At present no other Vocational Sections will be authorized.

Students of college grade—that is, those who have finished a four years' high school course, but who are not eighteen years of age, should enter college immediately. As they are eligible for admission to the college, they can be given military instruction. As they are not eighteen years of age, they cannot be inducted into the S. A. T. C., and not being members of the U. S. Army, they must pay their own expenses until reaching eighteen years of age.

The school year will be divided into quarters ending December 30, March 30 June 30, respectively. It is the purpose of the War Department to take the boys from the S. A. T. C. and place them either in officers' training camps, in non-commissioned officers' schools or in the army as the records made by them in the S. A. T. C. warrant. As these boys are taken out of the S. A. T. C., their places must be filled by others eligible by age and by high school training. It is necessary, therefore for the high schools of Missouri to reorganize their work at this time so as to allow boys who will be eighteen years of age by the last of December and who have up to the first of September twelve units of credit opportunity to secure additional units so that they may enter the S. A. T. C. on December 30. As State Superintendent of Schools I am therefore recommending that high schools arrange at once for a six day per week school schedule, shorten Thanksgiving and Christmas holidays to one day each, and omit other holidays, and that where possible boys be allowed to concentrate on and complete two subjects in the high school curriculum instead of carrying four. Where this is impractical the four year school units should be carried. I am assured higher institutions will accept one-half year's work in a subject as the equivalent of a one-half unit for admission. Local school authorities can best determine which plan should be followed. The point is that we should make it possible for high school boys to have at least thirteen units of credit by the last of December. If possible, the high schools of Missouri should be able to complete their year's work by the 30th of March. This will require considerable readjustment, but it should be done now rather than later. Educational opportunities must not be diminished but the same advantages should be offered in a less number of days.

The action of the Government emphasizes the necessity for high school training. It doubly emphasizes the need for elementary education. No matter what the expenditure of men and money, this world cannot be made safe for an ignorant democracy. The elementary schools must be efficiently maintained. Last year's reports from the county clerks show that there was a falling off of about four million days in school attendance. If the number of days attended were equally divided between all the children of Missouri, each child would be in school about eighty-eight days or about four months and two weeks. This is not sufficient. The elementary school must be maintained and compulsory attendance laws must be enforced. We rightly regard ignorance and child labor as menaces to America. We cannot afford to sacrifice the future of this country by keeping children out of school during the time schools are in session.

If you can use $100 look up the reward given away on page 4 in this paper.

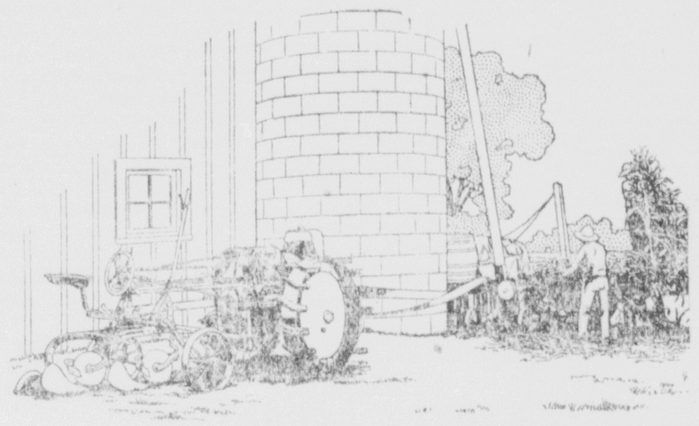
MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

The Moline Universal Tractor is a very useful farm servant besides doing all discing, plowing, harrowing, seeding and other draft work and employing the attention of but one man to do this work, and TO THINK HE IS THROUGH WITH HIS SEEDING and is now CUTTING CORN and FILLING THE SILOS with this same TRACTOR.



makes it one of the most dependable of all the farm tractors, and there are no farmers more wise to this situation than those who are doing this very thing today—THEY ARE GETTING SOMEWHERE, so to speak. YOU may do likewise and reduce your present cost of production and increase YOUR earning capacity. OPPORTUNITY is knocking at YOUR DOOR. Why not improve conditions before another busy year presents itself? We anticipate advances in most everything—a hunch to the wise should be sufficient.

Standard Four Tire Co., service station. Ford tires and tubes in stock. See us when in need of these supplies. "Gardner Carburetors, etc."

All Ford car owners find this carburetor will get them more mileage, less trouble from carbon, and easier to start during cold weather than any other carburetor in use on your Ford.

Former Pastor to Japan.

Bishop W. F. McMurry, who about twelve years ago was presiding elder of the Methodist churches, South, in the St. Joseph District, left Sunday, for San Francisco, where he will sail Sept. 23 for Yokohama, Japan, says the St. Joseph News-Press. Before being presiding elder in St. Joseph, Bishop McMurry was pastor of the Maryville Methodist church, South, and also held several other pastorates in northwest Missouri. Bishop McMurry will go from Japan to China, where he will spend four months conducting Methodist conferences.

BAR A PRO-GERMAN HISTORY

New Addition for Schools Will Have War Department's Approval—Were Withdrawn in Kansas City Also

The withdrawal from Maryville schools of Robinson & Beard's "Outlines of European History," found to contain pro-German sentiment has met with similar action by the Kansas City Board of Education where the books were also in use. The publishers, Gin & Co., in a letter to the Kansas City board, states the offending edition (part 2) which is pro-German in tone, has been withdrawn from the market and that a new edition is now on the press. Of the new edition the company writes:

"The revisions are not neutral in tone; they are thoroughly American in spirit, and clearly and ardently represent the present feeling of the American people toward German autocracy."

Excerpts from the revised edition are given, with the statement the work has been submitted to the chief military censor of the War Department and approved without criticism.

Supt. McDonald ordered the pages —some fifteen of them—containing the German propoganda torn from the books. Owing to the fact that it will doubtless be some time before the new edition is off the press the baaks with the objectionable matter eliminated will continue in use until they may be had. There is no question about the history in a general way. The objectionable matter was written in 1914 before this country became involved in the war.

A reward of $100 is offered to the man, woman or child who will comply with the adv. on page 4 of this issue.

CHEMIST WINS LASTING GRATITUDE.

"I tried several doctors and all kinds of medicine, and had about given up all hope of getting better. I did not think it possible that any medicine could be so wonderful in its effects as Mayr's Wonderful Remedy has in my case. You sure have won my lasting gratitude. I could not work at all and had constant pain in my stomach before taking your medicine." It is a simple, harmless preparation that removes the catarrhal muceous from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Maryville Drug Co., and druggists everywhere. Adv.

$100.00 Reward

If you will cut out this ad and bring it to me inside of 6 months with a buyer for one of the nicest located, handiest and best improved farms in Northwest Missouri, I will give you the above amount in gold for your trouble. Who is going to be the lucky one? Mail a copy to your friends.

DESCRIPTION OF FARM.

Size 80, 120, or 160 in one block. This farm is located in the north east corner of Nodaway County, Independence Township. The 1917 statistics show this county to be the richest and most productive county in the state. Over 10 million dollars worth of corn, wheat and oats were grown in this county last season. If your home is in the above county you are living in one of the richest and most productive agricultural spots on this globe, and in this locality a crop failure was never known. This land is in a high state of cultivation. Black soil underlaid with clay, rolling with good drainage; no rock or stone—75 to 100 acres in cultivation, 30 to 40 acres in meadow, balance pasture, all under fence and cross fenced. This farm is nicely located on main traveled road, 2 miles from town, one mile from church, ½ mile to school, telephone and free delivery. Sheridan is a town of 7 or 8 hundred population, located on one of the best railroads in the state. All classes of business represented. Good 12th grade school, two churches, large grain elevator and everything that goes to make it one of the best buying and selling points between Des Moines, Iowa and St. Joe, Missouri.

DESCRIPTION OF IMPROVEMENTS.

Two story 8-room house, nicely finished, with cement walks all around it and to all the outbuildings; wash house 14x16; good brick cave; horse barn 30x40; hay and cattle barn 40x50; hog house 16x30; hen house, garage, implement shed, and best of all, never-failing water, with wind pumps and two large cement watering tanks. If the above description is something near what you want, come and look it over and if satisfactory, the price is right. One-third down, balance 5, 10, 15 or 20 years at 6 per cent. And remember, your money invested in land is safer than government bonds and for many years to come will pay you a much larger dividend. You know it cant burn up, blow way, lost or stolen is impossible and goes up in value day by day.

P. S.—Will sell household goods and furniture, stock, hay, grain and farm implements on same terms and give possession in ten days. Come and see or address,
